

FREEDOM OF INFORMATION ACT 2000

Your request for information has now been considered and the Council's response to your questions is shown below.

You asked:

I would like to know the costs involved in putting up and then immediately taking down the lamp posts along the new cycle path in Newarke Street in October and November 2013.

ANSWER

The lamp columns were originally intended to be moved from their former location at the front of the old footway on the north side to the front of the new kerb line, however, due to a number of unidentified service cables buried in the footway it was not possible to place them 500mm from the new kerb line to ensure they did not obstruct the new cycle path. The lamp columns were moved to the front of the footway as a temporary solution to ensure a safe level of lighting, whilst the south side locations were being prepared for installation. The total cost of the lamp column move and installation was £15515.
