

FREEDOM OF INFORMATION ACT 2000

Your request for information has now been considered and the Council's response to your questions is shown below.

You asked:

In October 2013 wrote to you requesting information on the Public Health Consultants employed by your local authority. We are aware of the pace of change within public health medicine and would therefore like to further clarify this request, to ensure that the information we hold is still correct.

To further clarify our request, we would define a 'public health consultant' as an individual who has completed their higher specialty training in public health and are on the GMC/GDC Specialist Register or UK Public Health (Specialist) Register.

A 'medical background' in this circumstance would refer to those Public Health Consultants who are also doctors.

The most common terms and conditions a public health consultant is employed on are: NHS agenda for change for non medics, NHS medical/dental consultant contracts for medics or local government terms and conditions.

I have attached a short form to this email, which includes your previous responses and three new queries, I would appreciate it if you are able to return this letter to us as soon as possible.
