

## Freedom of Information Act 2000 – disability friendly housing

Your request for information has now been considered and the Council's response to your questions is shown below.

### You asked:

In response to the questions below marked with a star [\*], please include figures for both publicly and privately funded/owned properties if possible, and specify which you are providing if both figures are not available.

Where we refer to 'disabled people', we are referring to the definition included in the Equality Act 2010:

"You're disabled under the Equality Act 2010 if you have a physical or mental impairment that has a 'substantial' and 'long-term' negative effect on your ability to do normal daily activities."

Where we refer to 'supported living' we are referring to: housing for people with a disability (which the tenant rents or owns) with support options available and provided by the same, or a separate organisation. This would not include residential care services and or "shared lives" (adult placement) schemes.

All of these households have had an Occupational Therapist assessment to determine the level of adaptations needed. All of them have mobility issues and need level access showers and lift transfers.
