

FOIA Request 0539

Please note: Data source is from School Census collection taken for respective Autumn and Summer Terms for the academic years requested. Attainment data is taken from the respective DfE KS4 data release.

1a) How many pupils registered at the start of Key Stage 4 ?

For an accurate comparison between academic years, the number of pupils registered in Summer 2011 Year 11 will be compared from Year 10 in Autumn 2009.

Summer 2010 Year 11 pupils will therefore be compared from Autumn 2008 and Summer 2009 Year 11 pupils will be compared from Autumn 2007.

Pupils who are registered at the start of Year 10 in Autumn 2011 will complete Year 11 in the Summer of 2012 and therefore we will have no data to report.
